Full-Stack MERN Developer

Full-Stack MERN Developer with 4+ years of experience building scalable web applications and mobile solutions. Expertise in MongoDB, Express.js, React.js, Node.js with proven ability to lead teams, optimize performance, and deliver end-to-end solutions that drive business growth.

TECHNICAL SKILLS

- **MERN Stack:** MongoDB, Express.js, React.js, Node.js, Next.js, React Native.
- **Frontend:** JavaScript, TypeScript, Redux Toolkit, Tailwind CSS, Material UI, HTML5, CSS3.
- **Backend:** REST APIs, WebSocket, Socket.io, JWT Authentication, Database Design.
- **Database:** MongoDB, PostgreSQL, Firebase, Query Optimization, Schema Design.
- **Tools & DevOps:** Git, Docker, Vercel, Postman, Jest, Cypress, CI/CD Pipelines.

PROFESSIONAL EXPERIENCE

HJ Real Estates, Delhi, India

Jan 2025 – Jun 2025

Senior Front-End Developer

- **Team Leadership:** Led a team of 5 frontend developers in architecting and developing comprehensive HR management systems using MERN stack.
- **Performance Optimization:** Migrated company website from WordPress to Next.js with SSR, achieving 500% increase in organic traffic (10K to 60K monthly visits).
- **Independently developed and deployed** the cross-platform mobile application 'Du More' using **React Native**, handling the complete process from development to deployment on both [Android](#) and [iOS](#), optimized for **phones** and **tablets**.
- **Migrated** company [website](#) from **WordPress** to **Next.js** with **server-side rendering**, resulting in **500% increase** in **organic traffic** (10K to 60K visits).
- **Backend Architecture:** Built robust REST APIs using Node.js and Express.js with MongoDB for property management and user authentication systems.
- Implemented **advanced dynamic property search** functionality and integrated **Google Maps API** for **location-based listings**.
- **CMS Development:** Created custom content management system with rich text editor, file upload capabilities, and comprehensive CRUD operations
- Integrated **Redux Toolkit** for **state management** and used **Zod** for **data validation**.
- **Database Design:** Designed and optimized MongoDB schemas for scalable property listings, user management, and transaction processing
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, React Native, Next.js, Redux Toolkit, Zod, Tailwind CSS, Framer Motion, REST APIs.

Lobb Logistics, Bengaluru, India

July 2024 – Jan 2025

Front End Developer

- **Resolved bugs** in key features, including **trip tracking**, **payment management**, and **KYC registration screens**.
- **Implemented API integration** with **Axios** for **real-time data fetching** on truck locations, trip details, and payment statuses.
- **Collaborated** with backend teams to utilize **WebSockets** for **real-time data flow**, enhancing **tracking** and **notification capabilities**.
- Developed **self-service KYC functionality** for streamlined **user onboarding**.
- Contributed to the **Lobb Truck** and **Lobb FTL** apps available on [Google Play \(Truck\)](#), [Google Play \(FTL\)](#), and [App Store](#).
- **Tech Stack:** React, React Native, Redux Toolkit, Axios, WebSockets, Socket.io, Tailwind CSS, Git

Alpha Lion Trucking LLC, Noida, India

Dec 2022 – Nov 2023

Front End Developer

- Led the design and development of a collaborative web application with a focus on user-friendly interfaces, emulating advanced spreadsheet functionalities akin to Excel. This effort resulted in a remarkable **35% decrease** in processing time.
- Implemented **WebSocket's & REST APIs** to design a transaction system to facilitate collaborative work that allows sharing & publishing data and views actions, resulting in a **60% increase** in user engagement.
- Integrated **React** and **Redux Toolkit** for optimized front-end performance, streamlined **CRUD operations**. Employed **Tailwind CSS** for efficient UI design. Used **Tanstack Tables** for managing large datasets, rendering over **50K records** seamlessly with **virtualization** techniques.
- **Tech Stack:** React, Redux Toolkit, Tailwind CSS, Tanstack Tables, WebSocket's, Socket.io, Git.

Front End Developer

- Led front-end development for **Nobel Shaadi (Matrimony App)** using **React Native**, **Expo**, and **React Native Paper**, boosting user engagement by 20%. Implemented search, profile creation, messaging, image management, account deletion, and premium membership features.
- Developed front-end UI/UX for **REPRAR** using React.js, contributing to a 15% increase in user satisfaction. Integrated a **chat bot**, **React Router**, **Captcha**, and ensured **responsive design**.
- Developed front-end websites for Travel Junction utilizing React.js, driving a 25% improvement in booking efficiency. The platform boasts features such as a chat bot, **simplified ticket booking**, and a responsive design, ensuring a seamless user journey.
- **Tech Stack:** React.js, React Native, Expo, React Native Paper, React Router, Tailwind CSS

PERSONAL PROJECTS

Musicfy

May 2023 – May 2023

- Created an innovative music streaming **web application**, Musicfy, offering users a seamless and immersive music listening experience. Implemented a **user-friendly interface** with a robust backend, enabling personalized playlists, **search functionality**, and real-time music **streaming**.
- Role: Developer | Tech Stack: Next.js, Tailwind CSS, Radix UI, TypeScript, Zod, Redux, Hono.js, node.js, Vercel.

Portfolio

Apr 2023 – Apr 2023

- Engineered a cutting-edge portfolio with **Next.js**, showcasing adaptive **Day and Night themes** and seamless navigation; optimized for all devices to ensure an intuitive user experience, incorporated a **contact form** for direct communication.
- Role: Developer | Tech Stack: Next.js, Tailwind CSS, Shad CN, TypeScript, Framer Motion, Node Mailer.

Form Builder

Mar 2023 – Apr 2023

- Led the creation of an intuitive web app, enabling users to easily build **custom forms**. Implemented a seamless **drag-and-drop** interface for tailored form creation and efficient client sharing, resulting in a 20% increase in conversions.
- Key features include drag-and-drop functionality, robust **search capabilities**, secure **user authentication**, **image uploads**, **form sharing options**, and comprehensive insights into **submitted form results**.
- Role: Developer | Tech Stack: MERN stack, Radix UI, TypeScript, Zustand, Node Mailer, Google Auth.
